CRITERIA:2

TEACHING-LEARNING AND EVALUATION

Key Indicator: 2.3	Teaching-Learning Process
Metric No: 2.3.1	Student centric methods, such as Experiential learning, participative learning and problem-solving methodologies are used for enhancing

Data related to **Participative learning** along with proofs

- 2.1 Awareness program
- 2.2 Webinar / seminar
- 2.3 Avishkar
- 2.4 Seminar presentation / research progress presentation

2.2 WEBINAR AND SEMINARS

The institute places immense significance on the organization of webinars and seminars, recognizing their pivotal role in shaping the educational experience for students. These events serve as more than just routine academic activities; they provide an invaluable platform for students to engage with esteemed resource persons. These experts hail from diverse backgrounds, with representation from both academia and the pharmaceutical industry. As a result, students are exposed to a wealth of knowledge and practical insights that go beyond the confines of traditional classroom education. The bridge between theoretical knowledge and practical application is a crucial one, and these sessions are instrumental in constructing this vital link. By delving into real-world scenarios and sharing the latest industrial practices, these events transform the academic curriculum into a dynamic and ever-evolving body of knowledge. Students not only absorb textbook theories but also witness how these theories manifest in the pharmaceutical world. This experiential learning enriches their understanding and equips them with the acumen necessary to thrive in a competitive job market. In these interactive sessions, students are not passive recipients of information; they actively participate, question, and engage with the experts. This two-way exchange of knowledge fosters a deeper learning experience, cultivating a well-rounded perspective that extends beyond textbooks. It prepares students to tackle the challenges of the pharmaceutical field with confidence, as they've gained not only knowledge but also practical insights.

The institute's commitment to hosting such informative and interactive sessions underscores its dedication to holistic education. It is a testament to its vision of producing well-prepared, adaptable professionals who can excel in the ever-evolving pharmaceutical landscape. These events represent an investment in the future of pharmaceutical professionals, empowering them with the tools, knowledge, and skills they need to thrive in their careers and make a significant impact on the industry.
